

a

Coordinate transformation and operator redeclaration

SAME OPERATOR

Physical: $\Delta J = \varepsilon I$

consistent map $D_r^{-1}(\cdot)D_x$

Scaled: $\widehat{\Delta J} = \varepsilon D_r^{-1} D_x$

EQUIVALENT

REDECLARED OPERATOR

Scaled: $\widehat{\Delta J} = \varepsilon I$

map back $D_r(\cdot)D_x^{-1}$

Physical: $\Delta J = \varepsilon D_r D_x^{-1}$

NOT EQUIVALENT

b

Response of the represented operator
